

WHAT IS A
CLIMATE
CAFE[®]?

A Climate Café® simply creates a regular pop up space to bring people together to drink, chat and act on climate

Community led, a Climate Café® may be monthly in an open accessible community venue – or on a campus, in a school or workplace.

**Each Climate Café® is unique to
the people and place it is in**

A Climate Café® is for everyone! Chat and action is even more exciting when people come together and connect from diverse perspectives.

From these simple spaces to chat, remarkable actions emerge

Lots of actions are small and effective. Many chats have led to new initiatives or even organisations creating jobs and reducing fuel poverty.

Climate Café® collaborations are happening across communities bringing people together to chat and act on climate.

A pop up Climate Café® can enable people to connect, chat and act

During COP26 in Glasgow, pop up Climate Café® spaces created opportunities to hear from children and younger voices, those living on the front line of climate impacts, indigenous people, women, those with disabilities and our elders.

**A Climate Café® should be a
welcoming, inclusive, safe space**

Every Climate Café® in the Climate Café®
Network shares an ethos of being
community led, welcoming, informal,
inclusive, accessible and safe.

Climate Café[®] started in rural Scotland, now it is a global movement.

If you would like to get started with a Climate Café[®] in your community, get in touch with the Climate Café[®] Network team today!
